## EDUCATION

**KING SAUD UNIVERSITY, RIYADH,**  
Bachelor of Software Engineering  
Expected graduation: June 2023

## PROJECTS

**Visualization of data correlation Project (Graduation Project)**  
Jan 2022 – Nov 2022

A web application that seeks to simplify data by displaying it in simple charts, making it easy to identify correlations between individual attributes. All of this is accomplished by letting the user to: create a dataset, define a population, and define a query to retrieve population information.

**Online Store**  
Jan 2022 – May 2022

A web application - a regular online store- The goal of this project is to learn and use Trello.

**Vehicle Tracking System**  
sept 2021 – Jan 2022

System can track the location of the vehicles and will send details about the driver to the admin.
